

AAPSE CERTIFICATION & TRAINING

APPLICATION

INSTRUCTIONS

The AAPSE Certification and Training Academy will train those new to pesticide regulations and safety education at universities, state lead agencies, tribal nations, and industry. The Academy will include history, relevant issues, and available resources while providing mentorship and guidance to attendees to help their program grow for future success.

This program starts with several zoom trainings in Spring 2023 prior to a full 2-day in-person program in Summer 2023. Space is limited and watching the zoom trainings is highly suggested. Also having the state PSEP and SLA attend together is strongly encouraged.

The Academy will be July 24th and 25th with attendees arriving on Sunday, July 23rd. The Annual AAPSE Conference will run July 26th to 28th. Both events will be held at the Kimpton Brice Hotel and Conference Center in Savannah, GA. If you wish to attend, please fill out the application below. ***This is not for the virtual C&T Academy only for face to face event in Savannah. This is the pre-selection phase. Attendees will be selected after submitting this application.**
